2018-04

• GPA 3.7

• Graduated Cum Laude

Java Web Applicaiton

Projects

2018-01 - Senior Project

2018-04

Worked with a team of fellow students to develop a Java web application proposal management system for the Research, Scholarship, and Professional Growth Committee at Weber State University. The project gave us hands on experience implementing Java based techniques while utilizing technologies such as

Spring MVC, Hibernate, Servelt, Jsp, Ajax, Jquery, Javascript, HTML, CSS etc..

Youth Futures Utah

2017-08 -2017-12

ASP.Net Core MVC

Worked with a team of students to create an online content management system for an organization called 'Youth Futures Utah'. We provided them with a CMS that would allow them the ability to login, create users and manage basic content that appears on their website. We used technologies such as SQL Server, Azure, AppVeyor, CKEditor, and ASP.NET core identity along with C# best practices to accomplish the job.

EAGLE SCOUT PROJECT - SUB FOR SANTA

• Collected donations and items to help out struggling families during the holiday season.

T.O. Smith Elementary -English as a second langauge

• Worked with ESL students to develop core reading, writing, and vocabulary skills.
